

THE DEGERMINATOR

There are 2 models to choose from. The pocket-sized **UV-5D** measures just 22.5 cm long and weighs only 290 g.

For extra versatility, order the **UV-5ND** dual-wavelength lamp. The UV-5ND features a long-wave/short-wave (365/254nm) multi-band UV tube with LONGLIFE™ glass filters and a sliding dual-wavelength selector cover. Each filter measures 5.6 x 2.1 cm. The Lamp measures 22.9 cm long and weighs just 340 g. The long-wave (365nm) UV light is perfect for sanitary inspection and countless quality control applications, while the germicidal short-wave (254nm) UV light quickly kills or renders harmless a wide range of bacteria and viruses!

Both lamps work on four AA alkaline batteries (not included) or AC power. Come complete with FREE nylon carrying strap, nylon travel pouch and AC adapter.

UV-5D - Short wave length model
